

Excellence in Compliance Solutions

Wireless Device Certifications: The Need-to-Know to Go-to-Market

SAM WISMER — *VP of Technology, Advanced Compliance Solutions, Inc.*

Advanced Compliance Solutions Vice President, Sam Wismer, is the Guest Speaker at an upcoming meeting of The Atlanta Chapter of the IEEE Electromagnetic Compatibility (EMC) Society. Guests are invited by the EMC Society to attend the event, and we would like to extend this invitation to you — our valuable customers.

DATE: May 24, 2016

TIME: 6:00 p.m.

PRESENTER: Our very own VP of Technology, Sam Wismer

The meeting will begin at 6:00 p.m. with socializing and networking. Pizza and soft drinks will be served and the presentation will begin at 6:30 p.m.

SYNOPSIS:

With the expansion of wireless products in our everyday lives and the steep trajectory of the Internet of Things proliferation, the understanding of the testing and certification of wireless devices is important to their successful release to market. Also, compounding the issue are the evolving wireless technologies that can cause continuous changes in the testing and certification processes.

This **FREE** event is for those who want to understand the

regulatory approaches that are necessary for a product depending on its wireless technology (Wi-Fi, Bluetooth, ZigBee, etc.). Included is a basic explanation of how the approach differs whether the manufacturer is building their own radio and integrating it into their product, integrating a radio module that has not been previously certified, or using a module that has been approved for market already. Markets considered will include the U.S., Canada, and the European Union.

FEATURING
A PRESENTATION
BY VICE PRESIDENT
OF TECHNOLOGY,
SAM WISMER.

SPEAKER:

SAM WISMER is our Vice President of Technology at Advanced Compliance Solutions, Inc. He oversees all technology for the company including global regulatory product approvals for a wide variety of product types. With almost 25 years of experience in product approvals, Sam is an expert in wireless certifications. Sam and

several of the members of his staff are Organizational Members of ANSI Accredited Standards Committee C63® which is responsible for standards development and rule making within ANSI C63.4 / ANSI C63.10 / and ANSI C63.26 among other important standards for testing for regulatory compliance for wireless and digital devices.

DATE: May 24, 2016

TIME: 6:00 p.m.

PRESENTER: Our very
own VP of Technology,
Sam Wismer

The meeting will begin at
6:00 p.m. with socializing
and networking. Pizza and
soft drinks will be served
and the presentation will
begin at 6:30 p.m.

RSVP:

TO JOIN US for this presentation, it is necessary to RSVP to Scott Proffitt, Chairman of the Atlanta Chapter of the IEEE EMC Society. It is not necessary to be an IEEE member, anyone with an interest in the subject matter is invited.

RSVP to Scott at
sproffitt@acstestlab.com.

Enter the NCR facility via the left side of the building after turning off Satellite Blvd. and parking by the side employee entrance on the left side of the building. Enter from the employee entrance and check in at the reception desk. The meeting is **FREE** and open to anyone interested in EMC. IEEE membership is not required to attend.

We hope to see you there!
